Hereford.

Telephone - Peterchurch 241.

-XXXX-XXXX-XXXX-XXXX-XXXX-XXXX-

Mr. Chairman, Mrs. Lucas-Scudamore and Gentlemen,

I have the honour to submit my Annual Report for the year 1942. This report is very much abbreviated and is to be regarded as an interim report only.

I take this opportunity of placing on record my appreciation of the support and assistance which the Council has afforded me throughout the year. Also I have received much help and assistance in the discharge of my duties from Mr. F. Craze - Clerk to the Council, Mr. D.J. Francis - Sanitary Inspector, and Miss Sayce - Chief Financial Officer.

I am, Mr. Chairman, Mrs. Lucas-Scudamore
and Gentlemen,

Your obedient Servant,

WILLIAM HOGG.

Medical Officer of Health.

Puerperal Pyrexia	-	-	-	-	-	-	-	-	1	-	-	-	-	1
Diphtheria	-	-	2	-	-	2	-	1	2	1	-	-	-	8
Cerebro Spinal Fever	-	-	-	-	-	1	-	-	-	-	-	-	-	1
Totals	2	2	6	6	3	20	4	3	5	3	4	1	-	59

Scabies:-

The incidence of scabies appears to have been low in the District before the outbreak of war, but with the outbreak of war, as a result of the migration of the population and overcrowding, the incidence of the disease has increased. During the year under review 13 cases of scabies were brought to the notice of the Department but as the disease is not notifiable this figure probably understates the facts.

Diphtheria Immunisation:-

The Department continued its efforts to secure immunisation against diphtheria of all children residing in the area, with a certain amount of success. The Council with the co-operation of the practitioners in the Area inaugurated a scheme whereby free immunisation was available from the family doctor and this scheme has helped greatly.

During the year 134 children under 5 years of age and 588 children 5 - 15 years completed courses of diphtheria prophylactic, making a total of 722. At the end of the year it was estimated 30% of children under 5 years had received courses of prophylactic and 61% of those aged 5 - 15 years.

Tuberculosis:-

At the end of 1941 there were 20 cases of tuberculosis on the Register, 10 pulmonary and 10 non-pulmonary. During the year 1942 15 cases were added to the Register - 12 pulmonary and 3 non-pulmonary. Six cases were removed from the Register during the year - 3 pulmonary and 3 non-pulmonary, and on the 31st December 1942 29 cases remained on the Register - 19 pulmonary and 10 non-pulmonary.

New Cases and Mortality during Year 1942:-

Age Periods.	NEW CASES.				DEATHS.				
	Respiratory.		Non-respiratory.		Respiratory.		Non-Respiratory.		
	M.	F.			M.	F.	M.	F.	M.
0+	-	-	-	-	-	-	-	-	-
1+	-	-	-	-	-	-	-	-	1
5+	-	-	-	-	1	-	-	-	-
15+	3	2	-	-	-	-	-	-	-
25+	2	2	-	-	1	-	-	-	-
35+	1	1	-	-	-	-	-	-	-
45+	1	1	-	-	-	-	-	-	-
